

## DDA

strong acid detergent

## Line

DEEP CLEANING and SURFACE PREPARATION

## **Function**

DESCALING ACID DETERGENT.Recommended for the removal of any calcareous encrustation (efflorescences, water marks, excess of cement, etc). Works well on rust

#### **Materials**

Natural stones, glass, ceramic tiles, gres porcelain tiles, concrete. 
Contains anti-corrosion inhibitors for greater applicability.

## How to use

Under normal conditions, use in a 10-20% diluition in water (1-2 liter of DDA in 10 liters of water). In severe cases may be used undiluted. Let the product work and rinse well by clear water. To neutralize residual acidity, add a small amount of NEUTREX to the rinse water. 2 to 3 additional rinses may be necessary to eliminate every trace of product, especially, when protective or impregnator product application is to follow DDA application

# **Packaging**

LT. 1-5

## **Characteristics**

Contains anionic surfactants biodegradable >90%, mineral and organic acids, binders, corrosion inhibitors. Active ingredients over 30%.

# **Important**

Acid detergent: wear impermeable gloves and protective eye-wear. 
For more information see product label or product Safety Data Sheet. 
PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION. 
USE ONLY ORIGINAL CONTAINERS; NEVER POUR THE PRODUCT INTO OTHER METAL OR GLASS CONTAINERS.
