

COTTOFORTE NATURA

protettivo oleo-idrorepellente per cotto.

Line

terracotta "natura"

Function

IMPREGNATOR, ANTI-STAIN, OIL & WATER REPELLENT.

Protects against water, oils and greasy substances penetration. Makes the treated surface dirt repellent avoiding the making of stains

Materials

Terracotta, bricks and all kind of materials of medium or/and high porosity

How to use

The surface to be treated must be clean; the product can be applied also on damp surfaces. Pour the product on the surface to be treated and spread it evenly by a sponge or low pressure mechanical (or pneumatic) dispenser.

Apply the product "by refusal" (till the surface absorbs it). After some minutes remove the eventual excess of product on surface by a clean cotton cloth.

For very porous and absorbing materials a further application, applied "wet on wet", can be necessary. .

On polished surfaces, after drying, an eventual excess of product can originate opacifications; in this case, to remove the excess, polish by a floor-polisher equipped with a felt

Packaging

LT.1-5-10

Characteristics

Contains emulsifying organic polymers, water

Important

A PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION.
USE ONLY ORIGINAL CONTAINERS;NEVER POUR THE PRODUCT INTO OTHER METAL OR GLASS
CONTAINERS.The product CANNOT STAND THE FROST
