

COTTOFINISH NATURA

lava-incera.

Function

Water based wash-n-wax with light anti-slippery effect.Suitable for every kind of surface, of low-medium dirt level, to be protected by a waxy layer with a glossy-satiny effect.

Materials

Suitable for terracotta and all kind of surface (better if porous): marble, granite, terrazzo, agglomerates, gres porcelain tiles .

How to use

It can be used pure as it is or, for frequent application, it can be diluted till 5-10% (0.5-1 liters of Cottofinish and 10 liters of water). Apply with a mop or a clean cotton cloth, wet of product or diluted solution, on the surface to be cleaned scrubbing vigorously the very dirt parts.Do not rinse. Let the product dry before to walk on the surface.After drying, the surface can be polished with a simple floor-polisher to obtain a superior gloss. To have the best results, a regular and frequent use of Cottofinish is suggested

Packaging

LT.1-5-10

Characteristics

Mix of water, surfactants, soaps, waxes, filming and natural derivative substances.Active substance >20%.

Important

A PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION.
