

POLIESTERE FLUIDO

dual component adhesive of highest quality

Line

POLYESTER

Function

DUAL-COMPONENT ADHESIVE FOR AFFIXING MARBLE, NATURAL AND ARTIFICIAL STONE

Materials

MARBLE, NATURAL AND ARTIFICIAL STONE

How to use

For best results mix 2% to 3% of the catalyst with the adhesive. The paste formula makes easy to measure. A homogeneous mixing will facilitate uniform catalysis. The catalysis speed is influenced by the temperature and by the proportion/quantity of catalyst. An excess of hardener/catalyst will increase the hardening speed, but weakens the adhesive seal.

Packaging

750ml □
L.4-19

Characteristics

FOR MORE INFORMATIONS ASKING TECHNICAL DATA SHEET

Important

PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION. □
