

GENERAL TRASPARENTE VERTICALE

mastice poliestere trasp. verticale per marmi, pietre e agglomerati.

Line

POLYESTER

Function

DUAL- COMPONENT POLYESTER ADHESIVE FOR FIXING MARBLE, STONE, GRANIT

Materials

MARBLE, STONE, GRANIT ,AGGLOMERATES

How to use

For best results mix 2% to 3% of the catalyst with the adhesive; the paste formula make easy to measure. A homogeneous mixing will facilitate uniform catalysis. The catalysis rate is effected by temperature and by the proportion/quantity of catalyst. An excess of hardener/catalyst will increase the hardening speed, but weakens the adhesive seal.

Packaging

125ml-500ml-750ml
1-4lt
19lt

Characteristics
