

GENERAL SEMISOLIDO

semi-solid-vertical polyester adhesive for marble,stones,agglomerates

Line

POLYESTER

Function

TO FIX MARBLE, STONE, GRANIT □

Materials

marble,stones,agglomerates

How to use

For best results mix 2% to 3% of the catalyst with the adhesive; the paste formula make easy to measure. A homogeneous mixing will facilitate uniform catalysis. The catalysis rate is effected by temperature and by the proportion/quantity of catalyst. An excess of hardener/catalyst will increase the hardening speed, but weakens the adhesive seal

Packaging

125ml-500ml-750ml □

1-4lt □

19lt

Characteristics

Available in many colors:straw, white, black, grey, red 232,prun,jura.□

Special colors on demand.□
