

GENERAL FLUIDO

fluid polyester adhesive for marble, stones, agglomerates

Line

POLYESTER

Function

TO FIX MARBLE, STONE, GRANIT □
□

Materials

MARBLE, STONE, GRANIT □
□

How to use

For best results mix 2% to 3% of the catalyst with the adhesive; the paste formula make easy to measure. A homogeneous mixing will facilitate uniform catalysis. The catalysis rate is effected by temperature and by the proportion/quantity of catalyst. An excess of hardener/catalyst will increase the hardening speed, but weakens the adhesive seal.

Packaging

125ml-500ml-750ml □
1-4lt □
19lt □
Kg.225

Characteristics

Available in many colors: straw, white, black, grey, red 232, prun, jura. □
Special colors on demand

Important

A PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION.
