NOT FOAMING

Line

HOME LINE

Function

Special detergent and polisher for glass and mirrors always shiny and clean.
The mix of surfactants and antistatic agents ensures the product a fast and immediate action.

Materials

CLEANING AND POLISHING OF GLASS AND MIRRORS

How to use

- 1) Remove the excess of dirt and incrustation from the surface
- 2) Spray the product directly onto the glass / mirror and rub by using a microfiber cloth with circular motion
- 3) With another dry microfiber cloth, wipe the surface to remove any residual and facilitate polishing.

Packaging

750 ml. (with sprayer), 1 L.

Characteristics

- High degreasing power
- High cleaning capacity to dissolve smog and soot particles, to eliminate residuals of insects, to remove small incrustations
- High antistatic capacity to repel dust accumulation
- Absence of foam
- It doesn't leave halos/marks and it is delicately scented
- Suitable indoor and outdoor
