

COTTOFORTE

protettivo oleo-idrorepellente per cotto.

Line

TERRACOTTA

Function

IMPREGNATOR, ANTI-STAIN, OIL & WATER REPELLENT.
Protects against water, oils and greasy substances penetration. Makes the treated surface dirt repellent avoiding the making of stains

Materials

Terracotta and all kind of porous materials in general

How to use

On the dry and clean surface apply the product pure as it is with a clean cotton cloth or a brush till the material is impregnated, but avoiding the making of excess of product on surface.
In case of uneven or not homogeneous surfaces, apply the product gradually by a cotton cloth, wet of product, to avoid the uneven absorption and the appearing, after drying, of dark patches.
Avoid that excess of product dry on the surface because can be developped halos/marks or shade changements of the material.
Eventual excess of product can be removed by a cotton cloth wet of product (the removing action is developped by the solvents) or by a single-brush machine equipped by a soft felt/disk.
After drying, for very porous materials can be necessary a further application

Packaging

LT.1-5-10

Characteristics

Contains organic polymers and solvents

Industria Chimica General
Via Rep. S. Marino, 8 - 41122 Modena, Italy - Tel. +39 059.450.991/059.450.978 - Fax +39 059.450.615
