

## **COTTOFORTE**

oil and water repellent for terracotta

### **Line**

TERRACOTTA

### **Function**

IMPREGNATOR, ANTI-STAIN, OIL & WATER REPELLENT. □

Protects against water, oils and greasy substances penetration. Makes the treated surface dirt repellent avoiding the making of stains

### **Materials**

Terracotta and all kind of porous materials in general

### **How to use**

On the dry and clean surface apply the product pure as it is with a clean cotton cloth or a brush till the material is impregnated, but avoiding the making of excess of product on surface. □

In case of uneven or not homogeneous surfaces, apply the product gradually by a cotton cloth, wet of product, to avoid the uneven absorption and the appearing, after drying, of dark patches. □

Avoid that excess of product dry on the surface because can be developed halos/marks or shade changements of the material. □

Eventual excess of product can be removed by a cotton cloth wet of product (the removing action is developed by the solvents) or by a single-brush machine equipped by a soft felt/disk. □

After drying, for very porous materials can be necessary a further application □

### **Packaging**

LT.1-5-10

### **Characteristics**

Contains organic polymers and solvents

### **Important**

A PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION. □

USE ONLY ORIGINAL CONTAINERS; NEVER POUR THE PRODUCT INTO OTHER METAL OR GLASS CONTAINERS. APPLY ONLY IN WELL VENTILATED AREAS WHILE WEARING IMPERMEABLE GLOVES □
