DETERGO IL MUSCHIO E LE ALGHE IN ESTERNO

**SANITISING CLEANER FOR
MATERIALS PRONE TO ALGAE,
MOSSES AND GREENNESS**

As well as being an undoubted AESTHETIC problem, the appearance of greens and mosses obviously also represents a HYGIENIC and CONSERVATION problem for the underlying materials that are more easily subject to wear. Thanks to the presence of oxidising substances and its weak acidity, it develops a rapid and effective action on outdoor surfaces

APPLICATION

Cleaning detergent for materials subject to moss, algae, mould and greenness from terraces, stairs, walls, stones, pavements etc... **Also suitable for use in bathrooms, showers and kitchens**
