## TECHNICAL DATA SHEET PRODUCT

# BRILLCOTTO NATURA

**ECOLOGICAL PROTECTING AGENT  
WITH SATINY FINISHING FOR TERRACOTTA**

Ecological water based formulation specific for terracotta floors particularly suitable for satiny finishing; it is also suitable for bricks, flat bricks and porous stones in general. A balanced presence of resins and waxes of different characteristics expands its field of application and gives to the treated surfaces a long lasting protection and a warm satiny effect. The emulsifying agents contained give to **Brillcotto Natura** a slight detergent capacity. It can be over-applied and can be polished more times. On very porous surfaces an impregnating pre-treatment by COTTOFORTE or COTTOFORTE NATURA is needed.

### FUNCTION

REVIVER, WITH SATINY AND NON-SLIPPERY EFFECT.

### LINE

TERRACOTTA

FINISHING and PROTECTION

### INDICATION

Suitable for interior application. It makes a protecting waxy film of easy polishing.

### MATERIALS

TERRACOTTA, BRICKS, FLAT BRICKS, UNGLAZED ARGILLACEOUS PASTES, POROUS STONES in general.

### HOW TO USE

On the clean surface, apply the product undiluted spreading it by a clean cotton cloth.  
After drying, polish the surface with a cotton cloth or with a common floor-polisher.  
Do not walk on the surface until it is completely dry.

### TEST

A preliminary test on a small part of the surface to determine the drying time and the consumption per square meter, the final aesthetic result etc. is suggested.

### COMPOSITION

Water based product. Contains natural and synthetic polymer waxes, resins. Active substance > 20%

### TECHNICAL DATA

The consumption depends on the kind of material and is considered to be 30 to 100 gr./m<sup>2</sup>.

### STABILITY

The product is an aqueous emulsion: CANNOT STAND THE FROST. Do not store at temperature lower than 5°C (41°F) and higher than 35°C (95°F).  
These conditions respected, and kept in the original closed containers, the product is stable at least 1 (one) year.

### PACKAGING

1 L., 5 L., 10 L.

#### NOTE

Water based product; it can be applied also on damp or slightly wet surfaces. After drying, it can be applied a second coat, even diluted in water, according to the desired effect.

**Cottoforte** and **Cottoforte Natura** are products of GENERAL<sup>®</sup> protection line.

#### IMPORTANT

The product is environmentally friendly and has a pleasant floral smell; for these reasons it is widely used in private and public sites (hotels, restaurants, communities etc.).

#### LIMITATION OF LIABILITY

The data provided derive from published information or from our own laboratory tests. The information provided here must be considered as a guideline and not as any form of performance guarantee. Since the application of the product is beyond the control of the manufacturer or supplier, our liability for defective products, when verified, is limited to the refund of the purchase price.

**A PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION**
