TECHNICAL DATA SHEET PRODUCT

COTTODETERG

**STRONG ACID DETERGENT
FOR TERRACOTTA**

Removes quickly and efficaciously the incrustations and the dirt of calcareous nature. It is essential to purge the TERRACOTTA floors after the laying and it is excellent to remove the construction yard dirt. Removes quickly the laying residuals and saline efflorescence. Opens the porosity of the material for the best penetration of the subsequent application of the protecting agents. COTTODETERG is a detergent of acid reaction extremely quick and reactive.

FUNCTION

ACID DESCALING DETERGENT

LINE

COTTO

DEEP CLEANING and SURFACE PREPARATION

INDICATION

REMOVAL OF EVERY KIND OF CALCAREOUS INCRUSTATION (saline efflorescence, water marks, concrete marks etc.).

It is also efficacious against the rust.

MATERIALS

TERRACOTTA and NATURAL STONES, GLASS, CERAMIC TILES, GRES PORCELAIN TILES,
The presence of corrosion inhibitors allows a wide field of application.

HOW TO USE

IN SEVERE CASES IT CAN BE USED UNDILUTED. UNDER NORMAL CONDITION DILUTE IN WATER AT 10-20% (1-2 liters of COTTODETERG in 10 liters of water). APPLY ON THE SURFACE WITH A MOP OR RAG DAMPENED WITH THE SOLUTION. AFTER THE APPLICATION RINSE WITH CLEAR WATER THE TREATED SURFACES. THE RESIDUAL ACIDITY CAN BE NEUTRALIZED BY ADDING TO THE FIRST RINSING WATER A LITTLE QUANTITY OF **Cottonet**. TWO or THREE RINSINGS CAN BE NEEDED TO REMOVE ANY PRODUCT RESIDUAL ESPECIALLY IF, AFTER CLEANING, A PROTECTING OR IMPREGNATING TREATMENT MUST BE EFFECTED.

TEST

It's an acid product. When used on a material for the first time, a preliminary test on a small area must be made to determine the effects, the compatibility with the material to be treated and the right proportion of dilution.

COMPOSITION

CONTAINS ANIONIC SURFACTANTS MINERAL and ORGANIC ACIDS, BINDERS, CORROSION INHIBITORS.
ACTIVE SUBSTANCE >30%.

TECHNICAL DATA

Consumption depends on the intensity of the incrustations. In severe cases let the product work longer, but avoiding its drying on the surface, or repeat the application.

STABILITY

The product CANNOT STAND THE FROST.

Stored in dry place at temperature of 15-25°C (59-77°F), in well closed original containers, the product is stable.

NOTE

ACID DETERGENT: WEAR PVC OR RUBBER GLOVES, SAFETY GOGGLES OR FACIAL PROTECTION.

Keep out from reach of children. For more information see the label or the Material Safety Data Sheet.

PACKAGING

1 L., 5 L., 10 L.

IMPORTANT

TO OBTAIN THE BEST CLEANING A COMMON HARD PLASTIC BRUSH CAN BE USED.

DO NOT APPLY ON SURFACES/MATERIALS SENSITIVE TO THE ACIDS (on polished marble, anodized aluminium etc. the acids remove the polish). IN CASE OF DOUBT EFFECT ALWAYS A TEST.

LIMITATION OF LIABILITY

The data provided derive from published information or from our own laboratory tests. The information provided here must be considered as a guideline and not as any form of performance guarantee. Since the application of the product is beyond the control of the manufacturer or supplier, our liability for defective products, when verified, is limited to refund of the purchase price.

A PRELIMINARY TEST IS ALWAYS RECOMMENDED BEFORE THE APPLICATION
