DETERGENT

DEGREASER

Concentrated product for a deep and intense cleaning. It removes easily oils, grease, old layers of wax, nicotine from floors and walls of **natural stone, terracotta, ceramic tiles, facing-bricks**. It is also used to remove soot layers from walls, stucco-works, plasters. Ideal for exterior use to clean the environmental dirt such as black incrustations, smog, lamp-black etc. from concrete and brick walls and window-sills.

It can be applied on calcareous surfaces (marbles), even if polished, without to modify the gloss.

The absence of foam makes easy the rinsing.

FUNCTION

ALKALINE DETERGENT and DEGREASER.

LINE

HOUSE

DETERGENTS

INDICATION

To clean all kind of greasy dirt: **oils, grease, dregs, sludge, fats, environmental dirt, lamp-black, waxy layers** etc.

MATERIALS

It can be used on all kind of materials except rubbers and synthetics.

HOW TO USE

For intense dirt and deep cleaning the product can be used pure as it is. For normal use dilute at 10-20% in water (1-2 liters of product in 10 liters of water) and then apply on the surface with a mop or cotton cloth. Let the product/solution work 10-15 minutes long avoiding the surface dries completely and then scrub by an hard brush or cloth or non-abrasive disc. If needed repeat the operation. Rinse abundantly with clear water. Two or more rinsings can be necessary if, after, the surface must be treated with a protecting agent or an impregnator.

TEST

Effect a preliminary test on a small part of the surface to be sure about the product compatibility with the material to be treated and to determine the adequate dilution.

COMPOSITION

Contains anionic and non-ionic surfactants biodegradable >90%, sequestering agents, glycoethers and polar solvents.

TECHNICAL DATA

The consumption varies according to the kind of surface and the intensity of the dirt.

A preliminary test to determine the right dilution is suggested.

STABILITY

Stored in dry place, in closed containers, at room temperature of 15-25°C (59-77°F), the product is stable

NOTE

Low foaming alkaline detergent. The use of impermeable gloves is suggested. Keep our from the reach of children.

For more information about safety consult the product label or the Material Safety Data Sheet.

IMPORTANT

To obtain a deep cleaning scrub the surface with a plastic brush. The best results are obtained by the use of a single-brush machine equipped with a non-abrasive and soft disc.

The solvents contained can remove eventual pre-existing treatments which must be applied again. Before the application it is suggested to effect a test on a small part of the surface to verify the compatibility of the product with the surface.

LIMITATION OF LIABILITY

The data provided derive from published information or from our own laboratory tests. The information provided here must be considered as a guideline and not as any form of performance guarantee. Since the application of the product is beyond the control of the manufacturer or supplier, our liability for defective products, when verified, is limited to refund of the purchase price.

A PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION
