WASH-N-POLISH DETERGENT FOR CLEANING AND MAINTENANCE OF MARBLE, GRANITE, STONERS, TERRACOTTA, CERAMIC TILES

Product with good detergent action for the cleaning and maintenance of absorbing stones: floors and walls. No rinse needed; cleaning and maintenance are achieved by the same application. It develops an intense and delicate action, renovates the colours and get them shining. It doesn't contain wax but make a protecting layer repelling the dirt and making easy the subsequent cleaning and maintenance. A frequent, regular and continuous use assures the best results. It can be used pure as it is or it can be diluted in water in every proportion.

FUNCTION

CLEANS QUICKLY AND REVIVES THE COLOURS. GIVES TO THE SURFACE AN AGREEABLE AND SATINY APPEARANCE.

LINE

HOUSE

CLEANING & MAINTENANCE

INDICATION

A regular use get an anti-dirt, self-polishing, layer making easy the cleaning operations.

MATERIALS

Particularly suitable for the surface of **natural stone, marble, granite, terracotta, ceramic tiles**.

HOW TO USE

It can be used pure for deep cleaning or, normally, diluted in water till 10-20% (1 or 2 liters of product and 10 liters of water). With a mop or a clean cotton cloth wet of pure or diluted product, rub the surface and scrub the more dirty parts. No rinse needed. Let the product dries before walking on the surface. The dry surface can be polished with a normal floor-polisher. As the product doesn't make film on the surface, the operation can be periodically repeated.

TEST

Before the application, it is suggested to effect a preliminary test on a small part of the surface to determine the compatibility of the product with the material to be treated, the consumption and the drying time and, after drying, the aesthetic result and the protecting level effectively performed.

COMPOSITION

Contains anionic surfactants, soaps, coadjutor oils, viscosing and anti-foams agents

TECHNICAL DATA

The consumption can varies considerably according to the kind of floor and the shine grade required.

STABILITY

Stored in dry place, in closed containers, at room temperature of 15-25°C (59-77°F), the product is stable

NOTE

The product doesn't make superficial film and has no contraindication. To obtain the best results a continuous and regular use of the product is suggested.

For more information about safety see the label or the Material Safety Data Sheet

IMPORTANT

After the surface is dry, the cleaning and the reviving effect are enhanced rubbing the surface with a polishing brush with a clean cotton cloth or, better, with a floor-polisher equipped with a soft felt.

LIMITATION OF LIABILITY

The data provided derive from published information or from our own laboratory tests. The information provided here must be considered as a guideline only and not as any form of performance guarantee. Since the application of the product is beyond the control of the manufacturer or supplier, our liability for defective products, when verified, is limited to refund of the purchase price.

A PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION
